

Features and Benefits

LCD KVM CONSOLE T1700/T1900

Features	Benefits
Hardware Features	
17" or 19" LCD display with up to 1280 x 1024 resolution	Large display means data is clear and easy to view. The T1900 supports 1152 x 900 @66/76 Hz specific resolutions for Sun.
1U rack mount unit	Saves space at the rack. 1U design takes up to 85% less space than a full-size keyboard, monitor and mouse.
Compatible with any Raritan KVM switch	Provides added flexibility. With the ability to connect to any Raritan KVM switch, multiple servers can be managed directly at the rack.
Side rails with fixed position feature	Stable working surface prevents unwanted drawer movement.
3-in-1 KVM Cable	Because it supports both PS/2 and USB connections, there is no need to buy and run separate cables.
On Screen Display (OSD) and front panel controls	Eliminates the need to access the rear of the unit after deployment. Enables easier switching and adjustments.
Supports Sun [®] , Windows [®] , Linux [®] and other operating systems.	Easily integrates into virtually any server room or data center environment. T1900 also features support for Windows Vista [™] .
Built-in power supply	Eliminates need for external power bricks.
Multi-language keyboard support	Supports US English, UK English, German, French, Spanish, Italian, Traditional Chinese and Japanese.
