

End-of-Life and Discontinued Product Announcement

Select Raritan PX2/PX3 Rack PDUs

March 8, 2023 | **Revised April 3, 2023**

Revised April 3, 2023

There were a few questions about this announcement that we felt needed some clarification.

Many part numbers listed below are being discontinued because the associated suitable cord length is longer than the 4.5m threshold per UL 62368 Table G.7ADV.2, which are denoted with an A6, A7, A12, etc., part number descriptor.

This, however, does not affect base models of the affected part numbers or models with a 1.5-4.5m cord length that do comply, for example, part numbers including A1 (1.5m), A2 (2m), A3 (3m), A4 (4m), and A5 (4.5m).

To provide better guidance regarding this announcement, we've updated the suggested replacement part numbers in the table below with base part numbers. From there, select an applicable cord length option.

We apologize for this oversight and thank you for allowing us to make things right. Please contact us at 1-800-724-8090 or email sales@raritan.com to speak to our team of power experts if you need further clarification.

Legrand is announcing the End-of-Life (EOL) and discontinuation of the Raritan part numbers outlined in *Table 1*. With this announcement, we encourage you to contact us to decide which replacement, alternative, or comparable Raritan product offering will best fit your operations.
